OTHER DETAILS REMAIN

But Concern Chiefly the
Date of Offering the Is-
sue and the Terms to Be
Offered Installment In-
vestors—One London Pa-
per Says the Loan is a Dis-
grace to England.

(ASSOCIATED PRESS TELEGRAM)
New York, Sept. 30.—The commit-
tee in charge of the sale of the
\$500,000,000 Anglo-French bonds
has cleared away a number of details
concerning the methods of market-
ing the issue and expected to an-
nounce the entire problems late to-
day.

Chief of the details which were
settled are that the life of the un-
derwriting syndicate is to be sixty
days, the sums subscribed by banks
will be left on deposit with the sub-
scribers until needed and then with-
drawn proportionately, and the
profit of the syndicate members will
be 1-3-4 per cent, the remaining
quarter of one per cent being used
for expenses. The syndicate mem-
bers may participate without re-
striction as to the amount of their
subscriptions.

Undecided details concerned chief-
ly the date of the offering and the
terms of installment investors.
Lord Reading, chairman of the
Anglo-French commission, Basil B.
Blackett, secretary, Sir Edward Hol-
den and Ernest Mallet returned here
today from Chicago. They made no
announcement as to their plans.
Lord Reading is to deliver an ad-
dress tonight at the banquet of the
Pilgrims society.

Here are some of the questions
which the committee in charge of ar-
rangements sought to solve at their
conference today:
How much must an individual sub-
scribe in order to become eligible for
admission to the syndicate which will
get the bonds at 98?

What terms shall be offered to the
man who wants to buy the so-called
baby bonds—those in denominations
less than \$1,000—by installments?

When shall the bonds be placed on
the market?

Other minor details concerning the
life of the syndicate listing the bonds.

Indications are that the life of the
underwriting syndicate would not ex-
tend beyond sixty or ninety days and
that the bonds would be listed—possi-
bly free of charge—on the New
York Stock Exchange very shortly. It
was also thought that the bonds
might be offered for sale within ten
days. In advance of official an-
nouncement reports as to the mini-
mum amount to be subscribed by in-
dividuals entering the syndicate and
the installment terms were pure sur-
mise. One report was that the mini-
mum amount an individual seeking
to enter the syndicate could subscribe
would be fixed at \$250,000; another
fixed the amount at \$1,000,000. There
was no confirmation of either of these
reports, nor of the report that in-
stallment subscribers would be ex-
pected to pay one-fourth down and
the remaining three-fourths by Janu-
ary 1.

Lord Reading and the three other
commissioners who spent two days in
Chicago, were to dinner guests to-
night, with Sir Henry Babington
Smith and Octave Homberg, the com-
missioners who remained in New

Stock Market Again Active,
But Hysterical Operations
In War Specialties Lacking

(ASSOCIATED PRESS TELEGRAM)
New York, Sept. 30.—Trading in
stocks during today's early session
suggested another active day, but the
recent hysterical operations in war
specialties were lacking. These shares
were less conspicuous and it was
evident that speculation in that quar-
ter was under some restraint.

At the outset the only prominent
features among the specialties were
Continental Can with an opening of
\$1 at 114, which it soon extended to
120, and Lackawanna Steel. Later
Crucible Steel was added to the list,
moving up 4-1-2 to 109-1-4. A deter-
mined influence was seen in the pres-
sure directed against U. S. Steel,
which opened at a slight advance, but
immediately fell back on large offer-

Backwardness of the railways was
their adverse feature.

Trading slackened perceptibly in
the second hour and commission
houses, it was noted, were less active
on the buying side.

The market's vulnerable condition
was demonstrated shortly before mid-
day when rumors of the sinking of an
American ship in European waters
caused a violent break.

Baldwin, Bethlehem Steel, Crucible
Steel and Lackawanna Steel fell off
7 to 10 points, while others of the
same class yielded 3 to 5 points of
their early rise.

Union Pacific was weakest of the
railways, declining 3 to 130, and U. S.
Steel led the representative indus-
trial with a decline of 2 to 76-7-8.

Railroads which largely wiped out
losses caused when it was realized
that the incident bore only indirectly
upon international conditions.

FARMERS' CONGRESS ENDORSES WILSON'S FOREIGN POLICY.

(Associated Press Telegram)
Omaha, Neb., Sept. 30.—

President Wilson's foreign pol-
icy was endorsed in a resolu-
tion adopted at today's session

of the convention of the Farm-
ers' National Congress meeting

here, this week. Spirited de-
bate in which charges of "treas-
onable utterances" were made

preceded the adoption of the
resolution.

It expressed the confidence

of the congress in the patriot-
ism and courage of the presi-
dent, "who has stood at the

head of the American nation,
during one of the most critical

periods of its history."

FIGHTING WAS NO EASY WORK, SAYS SOLDIER

BARBED WIRE ENTANGLEMENTS DUG UP UNDER FIERCE GERMAN FIRE

Machine Guns Mowed Down Hun-
dreds of Allies Before Final
Victorious Dash.

(Associated Press Telegram)
Paris, Sept. 30.—"It was by no
means easy work," said one of the
wounded at the Grand Palais hospi-
tal, in describing the battle of Cham-
pagne, Saturday.

"Never have we seen anything like
the barbed wire entanglements. Our
shells ploughed up thousands of
stakes but there was an unnum-
erable number left which we had to
pull up under the enemy's fire. The
wire was so thick it was extremely
hard to cut. In many places our at-
tacking columns came against
Chevaux de Frise, behind which the
Germans lurked. We pelted them
with bombs as hard as we could and
the sappers who came behind us did
the rest.

"The machine guns which stormed
at us—that's why so many of us
were hit in the legs—were soon put
out of business. Then our cavalry
came up. They had gone so long with-
out a chance to fight on horseback
that they were keen to get into it.
It was a fine dash and the Germans
bolted on all sides. What they left
behind in the way of material, arms,
effects and equipment was unimagi-
nable. Their flight turned into a
panic when they saw our African
contingents after them. The Africans
certainly cut them up fright-
fully with the bayonet."

BRITISH GIVE SAFE CONDUCT TO DR. DUMBA

(Associated Press Telegram)
Washington, Sept. 30.—Sir Cecil
Spring-Rice, the British ambassador
personally delivered to acting Sec-
retary Polk, at the state department
today, a safe conduct under which
Dr. Constantin Dumba, the Austri-
an ambassador, will return to Vien-
na. The department asked for the
safe conduct some days ago when
Dr. Dumba telegraphed from the
summer embassy at Lenox, Mass.,
that he had been ordered home and
requested that arrangements be made
for his safe passage.

RUSSELL BOY WINS 2-10 PACE.

(Associated Press Telegram)
Columbus, Sept. 30.—Russell Boy,

two heats captured the 2-10 pace.
Incidentally Russell Boy established
a new world's record for a fifth heat
when he went the mile in 2:03 1-4
and duplicated the performance in
the sixth and winning heat.

Judge Ormonde was given second
and Hal Boy third money from the
purse of \$3,000.

RUSSIAN VILLAGE SET ON FIRE BY CZAR'S FORCES IN RETREAT FROM BREST-LITOVSK.

This realistic war photograph was taken during the Russian retreat after the capture of Brest-Litovsk by the Germans. Heavy clouds of smoke are rising from the ruins of a small village set on fire to destroy a large store of military supplies which the Russians were forced to leave behind them.

Government Must Pay \$16,000 Damages to Sherwood Company Or Find Another Site for P. O.

The Sherwood Hotel company of
this city was awarded \$16,000 in
the federal district court at Colum-
bus on Wednesday for condemned
park site adjoining the Hotel Sher-
wood, which is taken over by the
government for the new postoffice
building.

Several years ago the Sherwood
company gave the city the ground
adjoining the hotel for park pur-
poses with a stipulation that no build-
ing be erected. The United
States government then purchased
a lot to the rear of the hotel and
finding it not large enough endeav-
ored to secure the front lot. The
condemnation suite resulted and the
hotel company was awarded the
sum of \$12,000 yesterday for dam-
ages which will result to the hotel
from the erection of a large building
there. They were also given the
sum of \$4,000 in consideration of
the easement given the company in
the way of cement walks, and light
and air for the hotel.

This made the total payment for
damages to the Sherwood company
by the government \$16,000. The
city of Newark was allowed \$1 for

its share of the property appropri-
ated.

The case has been in the courts
about two years and Jones and Jones
and C. W. Miller of this city and A.
T. Seymour of Columbus represent-
ed the Sherwood company while
Ralph Norpell, city solicitor repre-
sented the city of Newark.

According to the latter attorney
the city will immediately file a mo-
tion for a new trial, which he is con-
fident of obtaining.

"The city has a money value in
the land in litigation. It is true that
it did not cost the city a cent, but
there is an intrinsic value there to
which the city has an unquestioned
right," said Mr. Norpell.

"The idea never occurred to me
that the city's claim would be dis-
missed with the allowance of \$1
nominal damages. It would have
seemed preposterous to me."

The government may now pay the
\$16,000 award of the jury and be-
gin the construction of the federal
building at once, or may abandon
the proposition entirely as far as
the Sherwood site is concerned,
which would cost, if the \$16,000 is
paid, \$34,500, as the original tract
sold at \$18,500.

Democrat Deputy Discharged By State Fire Marshal And, Food Inspector Resigns Job

(Associated Press Telegram)
Columbus, Sept. 30.—B. C. Sizer,
Dayton, assistant fire marshal, was
dismissed summarily today by state
fire marshal, Bert B. Buckley on spe-
cific charges of insubordination and
inefficiency.

His successor will be appointed to-
morrow, Mr. Buckley announced.
The salary is \$1500. Sizer is a
Democrat.

The specifications in the insubor-
dination charge are that Sizer failed
to make any reports during Septem-
ber, turned over to the press all the
communications of the department
and turned in excessive expense ac-
counts.

"You never used a vehicle or train
when you could get an automobile,"
said Buckley in a letter to Sizer.
"On one occasion you went from
Dayton to Sidney by train for \$1
and returned by automobile for
\$3.75." Charges of inefficiency re-
late that Sizer made almost no in-
spection during June.

J. Frank Robeson, Dayton, food
inspector in the Dairy and Food divi-
sion, Democrat, today resigned his
position which pays \$1200. His suc-
cessor probably will be appointed

when the state board of agriculture
meets here Monday.

Captain William Miller, civil war
veteran, Democrat, who as superin-
tendent of the statehouse and
grounds, has been a familiar figure
to capitol visitors for many years,
was dismissed today and his place
filled by William Weaver, Republi-
can, another veteran. Both men
live in Columbus. Miller is captain
of the Old Guard, a veterans' organ-
ization, and Weaver is second lieuten-
ant in the guard. The salary is
\$1,000. A number of other changes
among capitol policemen and labor-
ers was expected following Captain
Miller's dismissal.

The expected shake-up in the state
capitol grounds police force was com-
pleted this afternoon when nine
Democrats were removed and the
following appointments of new offi-
cers were announced:

James W. Weaver, Columbus;
John Robinson, Wayne County; T.
J. Collins, Springfield; Louis Wells,
Columbus; David R. Jenkins, Otta-
wa; John W. Laird, Jackson, Wm.
H. Stricker, Columbus; Robert
Powelson, Columbus, D. C. Curtis,
Delaware.

WILSON NAMES MEDIATOR FOR NEWARK STRIKE

(Associated Press Telegram)
Washington, Sept. 30.—Secretary

Wilson of the department of labor
today appointed William Blackman,

Seattle, Wash., a conciliator in the
strike of boilermakers of the Bal-
timore and Ohio railroad at Newark,
Ohio.

Robert M. McWade, and John P.

Colpoys, of Washington, D. C. were

appointed conciliators in the strike

of textile workers at Philadelphia.

A. L. Falkner, Cleveland, was

named conciliator in the controver-
sy between the Coal and Coke rail-
way company and its shop men at

POLICE MAKE ARREST OF
AN ALLEGED STRIKER

(Associated Press Telegram)
Chicago, Sept. 30.—Two hundred or
more striking garment workers and
sympathizers made a demonstration in
front of the cloak shop of F. Shapiro
at Wood and Julian streets today.

Bricks were thrown and windows broken,
but none was injured. Police re-
sponded to a riot call and one alleged
striker was placed under arrest.

NO TRACE FOUND OF LOST MINERS

Lansford, Pa., Sept. 30.—No trace of
the nine men who were entombed in
the Coalbrook colliery of the Lehigh
Coal and Navigation company last Mon-
day has been found and it is not be-
lieved they are dead.

Efforts to reach the imprisoned
miners are being made from two direc-
tions and the officials of the company
hope to be able to find the men to-
day.

French Cruelty Alleged By
Germans, When They Killed
11 of 12 Wounded Soldiers

(Associated Press Telegram)
Berlin, Sept. 30.—(By wireless to
Tuckertown, N. J.)—In a pamphlet
dealing with the shelling of the
Reims cathedral, the Prussian min-
istry of war adduces evidence to
prove that the cathedral was used by
the French as an observation sta-
tion. Statements and interviews
in French and English publications
are quoted as confirming the asser-
tion that on the last of September
an electric projector was used on the
cathedral tower under a Red Cross
flag and that a telephone station
likewise was established there.

TERRIFIC ATTACK TODAY

Is Going On for Final Mas-
tery of Crest of Ground
Between Souchez and
Vimy, Key to Lens, Its
Radiating Railway Lines
Would Make the Retaking
of Lille a Possibility.

(Associated Press Telegram)
London, Sept. 30.—The great strug-
gle on the western front, has now
resolved itself clearly into a battle
for Lens, in Pas de Calais, nine miles
northeast of Arras. The capture of
this town, with its radiating railways,
would bring into the foreground the
possibility of retaking Lille. Both
north and south of Lens, the allies
hold high ground dominating the
town—the British on Hill No. 70, the
French on hill No. 140, the highest
crest between Souchez and Vimy. The
official report from Paris last night
said merely that this crest had been
reached, so that presumably a ter-
rific counter attack is raging there today,
with final mastery of this important
position at stake. Rain, fog and
soggy ground have been hampering
both the contenders and limiting the
activities of air flight.

A few days of clear, dry weather
might mark some bearing on develop-
ments. The offensive of the allies
thus far has been confined to stretch-
es of the front amounting to less than
thirty miles in all. The general be-
lief in England is that these attacks
are only the prelude to what is com-
ing. At any rate the public would be
disappointed if the movement were
not sustained.

There is the usual speculation as to
the shifting of German forces from
the east to the west, although any-
thing like reliable information is lack-
ing. As against the report that some
Prussian guards have been hurried
west, there are rumors that Field
Marshal von Hindenburg, still bent on
taking Dvinsk, has been reinforced
heavily. Moreover, the Austrians,
judging from their successes in the
south apparently have received fresh
troops.

The victory of the British over the
Turks in Mesopotamia brings General
Sir John Nixon's men within 150
miles of Bagdad. The news came un-
derhanded to London as the fighting in
that quarter had been almost for-
gotten.

When the British will try to push
on to Bagdad is problematical but
the consensus of opinion here is that
the resistance of the Turks in this re-
gio has been crushed.

Some sections of the British press
see in this victory the addition of an-
other British colony.

"Whatever is done with the Turks
elsewhere," says the Pall Mall Ga-
zette, "they can never be allowed to
resume their bloodstained way in the
Euphrates Valley."

LIQUOR LICENSE APPOINTMENTS

Columbus, Sept. 30.—The state liquor
licensing board today appointed Joseph
Owens of Youngstown, Republican,
member of the Mahoning county licen-
sing board to succeed J. P. Huxley,
whose term had expired and C. W. Fol-
gie of Leipsic, Republican, member of
the Putnam county board to succeed
R. J. Cunningham, resigned.

that soldiers were housed in the
cathedral and acted as a guard,
closing the doors when shelling of
the cathedral began.

The testimony shows, says the
news agency in its summary of the
pamphlet that a group of ten
wounded German soldiers was
placed inside the building and an-
other group in the courtyard and
that French soldiers lamped by a

GERMANS ADMIT LOSS

OF ANOTHER POSITION

Berlin, Sept. 30.—Loss of another
position in France to the allies, as a
result of the great battle now in
progress, is announced in the
official statement from the war office
today. The Germans lost Hill No. 191.
Hill No. 191 is a position in the
Champagne region north of the town
of Massiges.

Galveston, Tex., Sept. 30.—After

West Indian hurricane which struck
the Louisiana coast, the United
States army transport Buford, with
the 27th infantry on board, is today

A wireless message received at
Galveston today sent at that hour,
indicated that the storm had passed
and that the water in the streets of
New Orleans was receding. The
death list is not expected to exceed
ten in New Orleans but the property
damage probably will be heavy.

Telephone and telegraph compan-
ies began work this morning repair-
ing the damage.

Linenmen succeeded in restoring
the fallen wires to within 25 miles
of New Orleans.

Railway and wire companies went
to work today to establish early
communication with gulf coast cities
hit last night by a West Indian hur-
ricane. From New Orleans, which
bore the brunt of the storm, had
come early today only meagre news
by wireless. Ten persons reported
dead, 150 injured and property loss
put at more than a million dollars
was the storm's toll there, a relayed
radiogram said. The message added
that ample warning of the storm's
approach had prevented damage to
shipping.

A furious gale lifted the roofs from
many New Orleans buildings and
partly demolished the old French
market, one of the show places of
the city. At times the wind reach-
ed a velocity of 130 miles an hour,
and streets were filled with flying
debris. Residents crowded into ho-
tels and downtown office buildings
for protection.

Little news has come from other
points. One report said that Biloxi
Guilford and Pascagoula suffered
heavily. Little damage was done in
Mobile. A relief train was to leave
here today for towns down the coast.

The wind here during the night
averaged from 25 to 60 miles. Mo-

(Associated Press Telegram)
Washington, Sept. 30.—The Ameri-

Orloff in the White Sea, and is a total
loss. The crew was saved but Cap-

June 9, and arrived at Arkhangel July

MARSHALL PLAYS AT GRANVILLE NEXT SATURDAY

(Special to The Advocate)

Huntington, W. Va., Sept. 30.—The Marshall College football team of this city will leave here in strong for the game with Denison at Granville, Saturday. Many injuries to regulars during the last week's scrimmage have made the practice unsatisfactory, but all men are expected to be in shape for the trip. Marshall will give Ohioans a line on West Virginia football as the local school is sure to be a contender for the state championship this fall. Coach Chambers of the local school is a graduate of Denison. The following men will make the trip: Thornburg, Reiser, Lane, Raper, Kay, Bonar, Workman, Lawrence, Harbour, Davisson, Callaway, Hollandsworth, Shepherd, Sutphin, Bates, Moore, Dorsey, Taylor, and Coaches Chambers and Beckelheimer.

300 PYTHIANS TO SPRINGFIELD FOR DEDICATION

Three hundred members of the local lodges, Knights of Pythias, headed by 75 uniformed Knights and the Buckeye Band will go to Springfield next Sunday to take part in the dedication of the home of the aged established by that order there.

A special train over the B. and O. has been secured for the trip. Several thousand of Ohio Knights are expected to be in Springfield for the dedication.

The Word "Bond"

Has an attractive sound to many investors.

This has led promoters to call many things "bonds" which are in truth but sorry imitations.

Bonds often have a good many years to run.

Expert knowledge is needed for their wise selection.

Good bonds are an excellent form of investment for men of large means, able to command expert legal and financial advice in their choice, men who have other and ample ready resources.

But even a good bond is a poor investment for a man of moderate means, because he may have to sell at a loss if he needs the money. Bonds fluctuate with the market.

VOICE HEARD BY WIRELESS FROM OCEAN TO OCEAN

WONDERFUL PROGRESS MADE IN TELEPHONING SUCCESSFULLY DEMONSTRATED.

"Telephone Party" Will be Entertained in Columbus, by Governor's Party At Exposition.

(ASSOCIATED PRESS TELEGRAM) Washington, Sept. 30.—Navy department officials were enthusiastic today over experiments resulting from the first time in trans-continental wireless telephoning communication. By this means, the human voice was successfully transmitted from the Arlington wireless plant to the Mare Island, California, naval station, a distance of 2,500 miles.

This achievement, together with the successful operation of a device for automatically transferring to the radio telephone, conversations originating on metallic circuits was accomplished after extended tests conducted by direction of Captain Bulard, Chief of the Navy's radio service in co-operation with the American telephone and Telegraph company.

In announcing the result, Secretary Daniels prophesied further development in long distance communication, both military and naval service in commercial usage.

GOVERNOR TO TALK TO COLUMBUS FROM SAN FRANCISCO, CAL.

(ASSOCIATED PRESS TELEGRAM) Columbus, Sept. 30.—Over 2000 miles of telephone wires from San Francisco. Governor Willis will converse with friends in the house of representatives chamber here next Monday evening. This was announced today by Forest F. Tipton, the governor's private secretary after invitations had been sent out to all elective state officials and their friends, 150 in number, to attend the "telephone party."

Receivers and transmitters will be installed on every desk in the house of representatives chamber to allow guests at this end of the line to hear what the governor has to say of his western trip, and to tell him about affairs here. Lieutenant Governor Arnold and Chief Justice Nichols will be official "conversationalists," representing the party here. The long distance connections will be made about 8 o'clock.

A branch telephone line will allow the governor's aged parents, Mr. and Mrs. J. B. Willis, at Delaware, to take part in the conversation with their son.

The demonstration of trans-continental telephoning was arranged by the American Telephone and Telegraph company, and the Central Union Telephone company, through E. A. Reed, general manager of the latter company here. Newton M. Miller, Ohio's commissioner for the Panama-Pacific exposition, planned the party for next Monday evening when the governor will be visiting the exposition. Several others will be on the San Francisco end of the wire beside the governor.

LONDON PAPERS

Regret the High Terms But Are Glad the Loan is Made.

(ASSOCIATED PRESS TELEGRAM) London, Sept. 30.—That England has become a borrower abroad and that the United States has entered the field of international lending are the outstanding facts widely commented on today by the British press.

The Times says: "The successful conclusion of the Anglo-French loan in the United States is in itself an event of such magnitude in our relations with America that any purely financial criticism on the precise terms of the loan must take secondary place. All the circumstances of the financial operation are unprecedented."

"We ourselves never before in modern history have sought a foreign loan. No country ever before has placed a loan for anything like such an amount abroad, not even in England, and it is safe to say that none of our enemies could borrow such an amount in the United States at any price."

"We regard it as an expression of American confidence, and in such circumstances need not scrutinize it too jealously if the terms are rather high. If we criticize anything it would rather be the two per cent, underwriting commission. If New York is ever to become in peace times a serious rival to London as an international money center, it must learn to do things cheaper than that."

The Morning Post in an editorial explaining why the terms of the American loan are necessarily high, says:

"There can be no question that our American cousins with their usual astuteness have taken full advantage of the allies' necessities and obtained a magnificent bargain, especially as the operations will prevent the collapse which might have occurred in American export trade if there had been a debacle in the exchange on London."

The Post, like many other papers, complains of the government's procrastination, contending that but for the delay, it might have obtained better terms.

The Daily News also finds the high terms of the loan decidedly disconcerting at first sight, but recognizes that they are due to exceptional circumstances and that it is undoubtedly worth the large expenditure to solve the exchange problem. The financial experts of all the morning papers comment on the stiff

terms exacted by Americans. The Times thinks it would have been cheaper and better to have a British war loan in the United States free of income tax, but as that opportunity was lost, "we had to accept the best terms obtainable."

The Financial News says exceptional circumstances "will prevent the agreement being regarded as humiliating although we must expect to hear plenty on that score from German sources."

Asserting that American bankers naturally prefer a loan with some \$10,000,000 profit to the importation of gold which brings no profit to the Manchester Guardian declares editorially, "there is no reason, however, why the government should indulge in what has every appearance of being blunder as costly politically as financially," insisting that the loan would be invalid unless approved by parliament, the Guardian adds.

"Seldom has a financial transaction been imposed upon the British people which cries out so loud for justification. It may be that Mr. Moreau and his associates have done the allies a good service and earned a reward but if so, it would be cheaper to present them with their 2,000,000 pounds and forego a loan so damaging to our credit."

GERMAN COMMENT

Is to the Effect That Loan is Unfavorable to the Allies.

(ASSOCIATED PRESS TELEGRAM) Berlin, Sept. 30.—By Wireless to Sayville.—The Anglo-French loan, which is being raised in the United States has aroused great interest in Germany.

"Leading financiers of Berlin," says the Overseas News Agency, "agree that, although British dispatches leave some features of the loan in doubt, the conditions are very unfavorable for England and France. A few years ago no one in either country would have thought it possible that such a loan would be issued in the United States at 96 and redeemable in five years. This means that England and France are paying out six per cent interest."

"It is generally believed also that in addition to the bonus of 2 per cent paid to the syndicate of underwriters other bonuses will be given, particularly according to the American custom, to the leading houses."

"It is probable that the share accorded to Russia will be small, if any part of the loan goes to that nation, although the Russian minister of finance is now in London."

In some quarters it is remarked that if the loan is offered for public subscription, it will be a strange kind of neutrality on the part of a country which also finances sales of war materials to Germany's enemies."

"The general impression is that the financial situation of England and France is such as to leave them no choice. This is indicated by the fact that a 2 per cent bonus was given to the syndicate."

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain, unadulterated coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last anyone in the family for months.—Adv.

GOOD RACES ON PROGRAM COUNTY FAIR

Wednesday's races at the county fair attracted a fair sized crowd and it was well repaid for while there were only two races on the program both were good, the 2:24 pace going the limit of five heats under the American association rules. There were six starters, one being drawn after the first heat and four of the others were each credited with coming under the wire winner of a heat.

Yesterday's crowd was not as large as the second day crowd usually is and that is accounted by the fact that the racing county farmers are so busy that they are compelled to garnish every minute of time. The crops are well known have been very backward and farmers are taking advantage of the pleasant weather this week. Notwithstanding that fact however a great crowd was present today. People began arriving early, the day being ideal for a county fair. Hundreds of rigs passed through the city people coming from all directions. The interurban cars were crowded and the city cars were taxed to their utmost capacity. The indications are that there will be a record breaking attendance.

The Granville band was present yesterday and discoursed music between heats from the band stand. Harry Lippincott & Co. also gave an exhibition with trained horses. Mr. Lippincott trained the horses himself and their tricks proved a pleasant diversion. The pony race was also enjoyable, there being four entries the purse being thirty dollars. A little six year old girl rode one of the ponies, and while she did not win the race she proved to be a very good jockey.

The horses were sent away by the starting judge, B. F. Yates, of Circleville, O., and he had them out on the track on time. Starter Yates is one of the best horsemen in the state and when he lays down the law the drivers know that it must be obeyed. He is fair in every respect, firm in his rulings and is giving splendid satisfaction to the spectators. The racing judges were J. Willis Fulton, S. S. Cooper and George Taylor. The time keepers C. J. Pence, Geo. Grove and P. A. Wareham. The clerk of the race course was J. M. Farmer. Following are the summaries of yesterday's races:

POLICE ATTEMPT TO UNRAVEL A MURDER MYSTERY

Cleveland, O., Sept. 30.—Cleveland authorities were busy today trying to unravel the circumstances of the mysterious murder of an unidentified woman whose body was found in a patch of woods in South Newburg, a suburb, late last night. Examination of the body today showed that the left hip had been broken and evidences that the victim had been choked were discovered in lacerations to her throat. The body was found near a former roadhouse. The body was fully clothed and is that of a woman five feet, six inches in height and 140 pounds weight, brown hair and regular features.

SAM'S DOUBLE DELAYS WINNING OF THE PENNANT.

Detroit, Sept. 30.—Crawford's double to the right-field fence in the ninth, scoring Cobb and Veach, gave Detroit a 3 to 2 victory over St. Louis here today. Had the Tigers lost the game, the American league pennant would have been clinched by Boston. The teams play here today to decide another postponed game.

JOHNSON FAVORS OPENING SERIES FRIDAY, OCT. 8

[ASSOCIATED PRESS TELEGRAM]
Chicago, Sept. 30.—Details of the world's series will be settled Saturday at a meeting of the national baseball commission to be held in New York City it was announced today. B. B. Johnson, president of the American league and member of the national commission, said he would vote in favor of starting the series on October 8 instead of the 11th, the date reported to be favored by national league interests.

"I see no reason why October 8 should not be acceptable to everybody," President Johnson said. "By opening on that date it will be possible to schedule two games in one day for Friday and Saturday, leaving Sunday an easy jump to either Philadelphia or Boston for the third and fourth games."

"To open the series on October 9, would entail scheduling games for Saturday and Monday in one city, then jumping over night to the other for games on Tuesday and Wednesday."

PACING EVENTS PREDOMINATED GRAND CIRCUIT

[ASSOCIATED PRESS TELEGRAM]
Columbus, Sept. 30.—On today's Grand Circuit racing program, the eighth of the meeting here, pacing events predominated. The Arch City stakes pace, started Wednesday, were to be finished early this afternoon. In the 2:10 pace, Judge Ormonde had two heats, with one each credited to Russell Boy. The board of trade stake for 2:07 pacers was on today's regular program which also called for the horseman's tutury pace and the 2:08 class trot. As special events, Peter Volo, 2:02 and Etawah, 2:03 were to attempt to lower their trotting records.

KITCHENER FAVORS VOLUNTEER SYSTEM TO LABORING MEN

[ASSOCIATED PRESS TELEGRAM]
London, Sept. 30.—Preference for continuation of the volunteer system was said to have been expressed by Earl Kitchener at a meeting of war executives yesterday which was addressed by the war secretary. He said, however, that the present rate of recruiting was not equal to the needs.

Earl Kitchener explained that his own plan which had not yet been authorized by the government was to apply the system of the military ballot. Every district would be required to furnish its quota of men. In case this quota could not be obtained by voluntary enlistment, the required number would be selected by ballot.

Among the men of military age and the enlistment of those thus chosen would be compulsory. The secretary added that there had been no slackening of the pressure to bring out recruits.

If necessary, the nut trees of the world could supply nourishment to its entire population.

CONSTRUCT MORE SEATS AT PARK FOR BIG SERIES

[ASSOCIATED PRESS TELEGRAM]
Philadelphia, Sept. 30.—Workmen today began the construction of additional seats at the Philadelphia baseball park in preparation for the approaching world's series with the winners of the American league championship. Although the contractor looked over the grounds and prepared estimates for the new seats shortly after the Phillies left on their last western trip, he was not given the order for the work until the pennant had been clinched yesterday. The additions will bring the total seating capacity of the park to about 20,000.

Thousands of applications for the games here have been received at the offices of the Philadelphia club, but no action will be taken on them until details of the series have been arranged by the National commission.

FOOTBALL NEXT SUNDAY, 3 P. M., AT WEHRLE PARK

The Northern Tigers of Columbus will come into town next Sunday afternoon with their claws unsheathed to tackle the Newark (independent) football team. The game will be played at Wehrle Park at 3 o'clock. Last Sunday's game, which was an easy victory for Newark, showed the boys where then weak spots were located and efforts will be made to remove these before Sunday. There was a slight tendency to fumble and one or twice signals were not understood.

All these points received the attention of the team members at the practice Tuesday night and will again be gone over tonight.

This gave rise to the rumor that freshmen were being hazed. A good time was enjoyed by the members of the Athenian society.

Boston, Sept. 30.—The Philadelphia yesterday won the National league championship for 1915 with Alexander pitching a one-hit game against the present title holding Braves. The score was 5 to 0. The defeat of the Braves makes it possible for the league leaders to lose all their remaining games and still have clear title to first place.

Among the spectators of the game were some of the Boston American players, the probable competitors of Philadelphia in the world series. Manager Carrigan of the Red Sox watched the play carefully. "It seems to be a well-rounded combination, but I'm sure we can beat them," he remarked during the game.

It was "Patsy Moran day" at Braves field and several thousand persons turned out especially to honor the visiting manager. Most of them came from Fitchburg, Mass., his home town. Among them was David I. Walsh, governor of the state, who presented Moran with a great floral horseshoe.

The new champions clinched their honors in the first inning. Bancroft's single to right and Rudolph's pass to Paskert was followed by Cravath's home run, which brought the latter's home run total to 23. A triple by Paskert sent another home in the fourth and Cravath cracked a double to left and Luderus a single for a run in the seventh.

CARROLL'S

*Really I'm quite fussy
about my clothes*

YOU'VE no idea of the time and thought I spend before I pick out a coat or a suit that is just to my liking. I don't mean simply the general style of the garment, but those little things which in themselves are so hardly noticeable but that can do so much to make or mar one's appearance.

There's the material that either helps to make your suit look just the thing for the occasion, or else makes it hopelessly out of place. There is the color, that can be selected so that it will make even a commonplace complexion beautiful, that will make you like that suit better the longer you wear it. Then there are those little touches of trimming that help mark you apart from the crowd, that cause people to turn and admire your taste. And if you have any thought for service, you will of course, want to know how long the lining will retain that fresh, lustrous appearance that marks the garment of quality.

There is such a lot of comfort in being able to take off a jacket and throw it on a chair without having to think of its falling so that some shabby place in the lining is revealed. I found that out long ago and that's one reason why I'm so fussy. But then, you should be, because we are judged a good deal by the clothes we wear—by their neat, tidy appearance—by their shape retaining qualities—by the quiet elegance of their coloring—the effectiveness of the trimming—all these are regarded as indicating whether you, who picked them out, are a woman of taste and refinement.

That's why I've come to depend on PRINTZESS styles—I know they're right in every way.

If you are fussy about your clothes, if you want to be sure they are absolutely right in style, that they have real shape retaining qualities that will always make them look as though they had just come from the presser's table, if you want to be sure that you are getting a garment that has all those little things about which the average woman does not know, but which all have their effect in making her dress truly distinctive—come in and let us show you the Fall styles in PRINTZESS, for PRINTZESS suits and coats have all these qualities and our expert garment salespeople will be glad to show you why.

THE SICK

GET ONE

Miss Laura Sheese of Chestnut street, who was operated upon at the City Hospital by Drs. W. E. Boyer and C. J. Dillon, is improving nicely. She was removed to her home Wednesday.

Selawik is a curious lake near the coast of Alaska. Tides rise and fall in the lake by reason of an underground connection with the sea. At the bottom the water is quite salt, but at the top is a layer of perfectly fresh water.

The driest place in the world is that portion of Egypt between the two lower falls of the Nile. Rain has never been known to fall there.

Society

Mr. and Mrs. H. D. Martin were honored on Wednesday evening by a party given at the home of Mr. Edgar Albright in Maple avenue. The hours were informally devoted to games and music and a luncheon was served. Mr. and Mrs. Martin were presented with some beautiful silverware by their friends.

The guests were: Mr. and Mrs. Martin, Misses Catherine Johns, Anna Wheeler, Lura Walton, Kinsel Roeder, Helen Vogel, Ruth Doughty, and Ethel Moore, of Akron, O.; Messrs. Myron

BORING-KREAGER.

On Wednesday evening was solemnized the marriage of Miss Mary Lenora Kreager and Mr. Leonard E. Boring, at the home of the bride's parents, Mr. and Mrs. Daniel Kreager of near Brownsville. The wedding service was read by Rev. J. M. Lampl, Mr. and Mrs. Boring will reside in Bowling Green township, where the groom is located as a farmer.

SPIDELL-WILLARD.

Wednesday afternoon Dr. L. C. Sparks solemnized the marriage of Mr. Lester C. Spidell, a young farmer of Johnstown, and Miss Goldie Willard of Fredonia. The ceremony took place at Mr. Sparks' home, 88 North Fifth street in the presence of the bride's parents, Mr. and Mrs. Milton Eagle. They will reside on a farm near Johnstown.

The wedding of Miss Eleanor Beecher, daughter of Mrs. J. S. Beecher, of 218 West Church street, and Mr. Kenneth Farmer of Syracuse, N. Y., and son of Mr. and Mrs. J. M. Farmer of North Fourth street, will be solemnized on Wednesday, October 10, 10 o'clock in the morning at the Second Presbyterian church.

Mrs. Frank White was hostess to the Idle Hour Sewing club on Wednesday afternoon. Needlework and contests were the amusements of the club. Mrs. William Phillips and Mrs.

Frank Keller received the club favors. A delicious two course luncheon was served at the close of the afternoon by the hostess, assisted by her mother, Mrs. Finch of Marietta, Ohio. The club will meet October 13 with Mrs. William Davidson, 57 Hoover street.

BAIRD-BAILEY.

The wedding of Miss Helen Bailey of Zanesville and Mr. Elmer Baird of this city took place at 8 o'clock on Wednesday evening at the home of the bride in Maple avenue, Zanesville. The service was read by Rev. G. Russell, Hageman of the Forest Avenue church and the guests numbered about fifty including Rev. and Mrs. L. P. Franklin and Dr. and Mrs. W. C. Rank of Newark.

LENNINGTON-TUCKER.

At 11 o'clock this morning Dr. L. C. Sparks joined in marriage Mr. Arthur Lennington and Miss Beulah M. Tucker, both residing at Pataskala. The ceremony was witnessed by a number of intimate friends and took place at Mr. Sparks' home on North Fifth street. They will go to house-keeping on a farm near Pataskala.

GUNDY-GETTINGS.

Miss Ruth Gettings, daughter of Mr. and Mrs. Walter Gettings of 99 West Locust street, and Mr. Alva Gundy were united in marriage at their newly furnished home in West Main street at two o'clock this afternoon. The officiating minister was Rev. G. T. Haller.

SUMMIT STATION

The condition of Mr. Hiram Woodruff is quite alarming at this writing. His age, 78 years, is against him.

Mrs. Emma Fradley and Miss Grace Schriener of Cleveland spent last Thursday and Friday with relatives and friends at this place.

Mrs. W. S. Griffith is visiting her daughter, Mrs. Elmer Hughes, in Columbus.

Mr. and Mrs. C. A. Blaney, daughter Letha and son Raymond, spent Sunday with Mr. William Gearhart and family at Etta.

A. J. Beals and Mr. D. Brock are still on the sick list.

Glorinne Besse spent the week-end in Delaware.

Miss Effie Banner of Champaign, Ill., is visiting her uncle and aunt, Mr. and Mrs. Banner.

S. B. Besse and family were Sunday guests of C. M. Bowly and wife of Pataskala.

Health and Happiness Depend Upon Your Liver.

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. The warring powers persistently
cling to the right to make all the
mistakes they want to in sinking
neutral ships.

There may be seventeen complete
costumes hanging in the closets, but
after looking at the fall fashions the
usual verdict is, "Nothing to
wear."

It is surprising the deep attach-
ment a man displays to his home
life at about the time his wife sug-
gests his going to church Sunday
morning.

The hosiery manufacturers want
people to wear white stockings ex-
clusively, and no audible voice of
protest has been heard from the
laundry men.

It is about time for the education-
al lecture courses to start in, con-
sisting of whistlers, players on the
bells and harmonica, and joke mon-
ologues.

Another sign of the reversion to
barbarism in Europe is that they
will not even declare a truce while
the world's series ball games are
being played.

It is customary for the Sunday
schools to hold a Rally Day about
now, but the boys seem to think the
proper inducements are not offered
until Christmas.

Many people will celebrate the
National Fire Prevention Day, Oct.
9, by starting fires in stores full of
paper, leading to chimneys loaded
with many years' accumulations of
soot.

Marvelous progress is recorded by
womanhood in entering and con-
quering new fields of activity, as il-
lustrated by the report that they
are rigging up as hoboes and jump-
ing freights.

Oiled Roads.

Every year's experience of high-
way building brings some new light.
A few seasons ago the rapid de-
terioration of highways under motor
cars seemed an almost insoluble
problem. Millions had been spent
in improving roads. Yet a few more
summers of motor travel seemed
likely to ruin these costly surfaces.

A stone road with the filling all
ripped out is worse than the original
sand or clay.

For a number of years road mak-
ers have been binding road sur-
faces with various forms of asphal-
tic, tarry, and bituminous oils. Bet-
ter results are constantly being re-
corded in this way. It is remarked
that the principal lesson of this
year's highway experience is the value
of the oiled road.

Pomerene on Preparedness.

The following statement by Sen-
ator Pomerene setting forth his po-
sition on national preparedness was
made in response to a query from
one of the metropolitan dailies. Be-
cause of the prominent part taken
in legislative matters of first im-
portance on the floor of the senate by
Ohio's senior senator his views are
of special interest to Advocate read-
ers:

A proper sense of national pre-
udence now requires the improving
of our national defense. I am op-
posed to a large standing army. I
do not believe in the militaristic
policy of Europe. But when half the
world is war mad—and when na-
tions seem to be seeking an excuse
to get into war rather than to keep
out of it—we ought not to be un-
mindful of the fact that under pre-
sent conditions we are having seri-
ous international differences, that
these will probably continue so long

as the present war lasts, and possi-
bly for years to come.

Before the present war broke out
we had every reason to believe that
the cause of world peace was ad-
vancing, and there was not then the
same necessity for increasing arm-
ies and navies which exists now.

Our efforts to settle international
differences by the arts of diplomacy
and by arbitration must continue
unceasingly. We cannot, however,
be blind to the fact that the solemn
obligations of treaties of neutrality
have been mercifully violated under
the plea of so-called military neces-
sity. Innocent lives have been lost,
and commerce interfered with on the
high seas in violation of every prin-
ciple of international law and the
rights of humanity. So long as na-
tions are in the frame of mind to do
these things we must meet condi-
tions as they are, and prepare ac-
cordingly. The American people
would not, in my judgment, approve
the expenditure of a single dollar in
a war of aggression, but on the other
hand they will expect the con-
gress to heed the lesson of the hour,
provide reasonable means of security
for American life and property both
on land and sea, and during the com-
ing session of the congress I shall
act accordingly.

A Valiant Crusader.

(Chicago Herald.)

The death of Anthony Comstock,
of world-wide note for dogged fight-
ing against printed and pictured ob-
scenity, may be referred to in cer-
tain quarters as that of a "crank,"
a "prude," and even a "puritan."
A truer view is that Comstock
did in his time a work sorely
needing to be done, and that if in his
later years he became what many re-
garded as a "nuisance" it was be-
cause they didn't realize how great
was the change he had helped to
bring about.

Only those old enough to remem-
ber and careful researchers in the
fading records of social history can
realize just what was the evil he
fought. But when he began the
traffic in obscenity was open. "Good
people" deplored it, but their atti-
tude toward it was much like their
attitude toward prostitution. It was
pitch which "good people" didn't
touch, but which must in some meas-
ure be endured because by human ef-
fort it couldn't be really cured.

Moreover, what made the situation
worse was that even the mention of
certain natural functions was re-
garded as "immodest." How think-
ing and speech have changed on such
matters in forty years was illustrated
by the acute remark of a keen social
observer some twenty years ago to
the effect that the "bicycle craze" had
led Americans to perceive that
"there is nothing essentially immoral
in the human leg."

Whether we are really more
"moral" now let moralists dispute.
We are certainly more decent out-
wardly. Also we are less prudish in
our morality. The service of Antho-
ny Comstock was that he led us to
think how we should think about cer-
tain matters and to perceive that cer-
tain evils need not be endured with
a sort of pious resignation. He was
a valiant crusader who fought in a
righteous cause, and in his later
years he mistook remembered how
many foul cesspools he refused to let
us blandly ignore.

TAKE A LOOK

If You Have Time

The man who neglects to look in
the glass in the morning can achieve
the same general depressing effect
by gazing intently at his photograph.

The first thing a man looks for is
a place to sit down. The first thing
a woman looks for is a mirror.

Man should not be judged en-
tirely by his ability to assimilate
punishment. His attitude in the
face of victory is the better test.

The man who refuses to do it in
politics will often "grandstand" a
little for the delectation of the
woman.

One of the recent poems is called
"The Wife of the Red Haired Man."
If you are making a crazy quilt this
undoubtedly belongs in it.

In Missouri recently a cat ate
canned salmon and died. You now
know what to do with the canned
salmon.

Deducting the time he spends
looking for a man, the average
man lives about fifteen years.

Another thing that makes a bride
angry is to have her husband forget
the fourth weekly anniversary of
their wedding.

To avoid argument it may be con-
ceded that football is more brutal
than prize fighting. But neither is
as brutal as women are to other
women.

WASTED WORDS.

The gifted statesman makes a
speech; we hear him rumble, growl
and screech for weary hours to-
gether; we murmur, as the moments
pass, "His lungs are surely made of
brass, his larynx is of leather." In
order to express a thought he springs
five miles of tommyrot, or
words that have
no bearing; and
how he hates to
come to spout!
He cannot see
he's wearied out
his audience De-
spairing. When
will our public
speakers learn
that brevity will
always earn the
gratitude of
hearers? Let

speeches all be shorn of guff, until
they are just short enough, and we
will bless the shears. No long
oration is a treat; a man may have
a voice as sweet as mockingsbirds or
linnets, but he becomes more than
bored if he is eloquent more than
twelve or fifteen minutes. Condense,
my friends, again! condense; don't
let the words outweigh the sense,
in speeches or in writing, boil down
your lecture or your screed, and all
the folks who hear or read will find
your work inviting.

Origin of the Monroe Doctrine.

Edmund Burke said in 1792: "The
standing policy of this Kingdom
(England) ever has been to watch
over the external proceedings of
France and to prevent the extension
of its dominion or its ruling in-
fluence over other states." The re-
sult of that policy was the Monroe
doctrine, with England through its
expert diplomacy, got this country to
proclaim. The original purpose of
the doctrine was to serve British in-
terests in South America, where
England was enjoying a lucrative
trade, and didn't want France to in-
terfere with it, which she was
strongly inclined to do. England
abandoned the holy alliance in order
to antagonize the spread of monarch-
ical institutions in South America,
which would seriously affect British
commerce there.

In those days the Monroe doctrine
amounted to something, and probably
kept European monarchs out of the
South American continent, but of
late years it has dwindled to a sen-
timent that is kept alive only by a
memory. It will never amount to
anything in the world politics.—Ohio
State Journal.

Tip to Stenographers.

In the October Woman's Home
Company Anna Steese Richardson
writes an entertaining and practically
useful article about stenograph-
ers. She says that a stenographer
may be just a machine or an ef-
ficient, capable helper. Following is
her idea of the kind of stenographer
who is most wanted:

"The girl who is advanced is she
who not only shows speed and ac-
curacy, but resourcefulness and what
is known as the ability to take the
initiative, so to think for herself
that she saves thought of details on
the part of her employer. The girl
who can save the precious time of a
high-salaried worker in handling
her details will eventually enter the
ranks of the higher salaried."

Learning Spanish.

Four hundred students were
registered in the Spanish classes
when the University of Washington
opened this fall, and 200 more were
denied admission because the classes
were greatly overcrowded. Almost
all universities are facing the same
problem, and many of them report
that there is a corresponding falling
off in the registration in all o'er the
country. High schools all over the
country report the same eagerness
to learn Spanish. The classes in
the New York high schools are over-
flowing. In Seattle seven teachers
are giving Spanish lessons in the
high schools. This sudden growth of
interest is due to recently awakened
knowledge of the opportunities for
trade with Latin America.—New
York World.

000, but even at that some of us

CAN HE HOLD OUT?

A Little Fun

Ought to Work.
"Alas, I have never been kissed."
"That shows lack of enterprise on
your part. Your sister has a fiancé,
I believe?"
"Yes."
"Why don't you meet him occa-
sionally in the dark hall?"—Louis-
ville Courier-Journal.

Thoughtlessness.
"Which are the pictures in your
gallery that you value most high-
ly?"
"I dunno," replied Mr. Cumrox.
"Mother and the girls told the man
to go round and take off the price
marks I had put on 'em before I had
time to learn 'em by heart."—Wash-
ington Star.

An Ultimatum.
Lawyer—Do you intend to name
Dolly Footlights as co-respondent?
Mrs. Wyld—No, let her pay for
her own advertising.—Judge.

His First Line.
"Pa, what is the 'first line of de-
fense'?"
"That depends on the circum-
stances, son. If this country were
at war, the first line of defense
would be the navy. When a man's
married, it's usually the telephone
line, by which he tries to square
himself before he comes home."—
Birmingham Age-Herald.

Her Handicap.
"A rich woman misses much in
life."
"As to how?"
"She can't run out to the back
fence when she gets hold of a choice
bit of gossip. She has to get up a
tea or reception, and by that time
the news is stale."—Louisville Cour-
ier-Journal.

No Interference.
When the jury in a western court
found the accused guilty of the
crime charged, the prisoner rose in
the dock and dramatically exclaim-
ed:
"May heaven strike me dead if I
am guilty!"
The judge waited a few minutes,
and then said:
"Prisoner at the bar, since Provi-
dence has not seen fit to interfere,
the sentence of the court will now
be pronounced."

the sixth baby is lucky if it gets two
napkins and a ten cent box of corn-
starch.

CARROLL'S

*Really—I'm quite fussy
about my clothes*

YOU'VE no idea of the time and thought I spend before I pick out a coat or a suit that is just to my liking. I don't mean simply the general style of the garment, but those little things which in themselves are so hardly noticeable but that can do so much to make or mar one's appearance.

There's the material that either helps to make your suit look just the thing for the occasion, or else makes it hopelessly out of place. There is the color, that can be selected so that it will make even a commonplace complexion beautiful, that will make you like that suit better the longer you wear it. Then there are those little touches of trimming that help mark you apart from the crowd, that cause people to turn and admire your taste. And if you have any thought for service, you will of course, want to know how long the lining will retain that fresh, lustrous appearance that marks the garment of quality.

There is such a lot of comfort in being able to take off a jacket and throw it on a chair without having to think of its falling so that some shabby place in the lining is revealed. I found that out long ago and that's one reason why I'm so fussy. But then, you should be, because we are judged a good deal by the clothes we wear—by their neat, tidy appearance—by their shape retaining qualities—by the quiet elegance of their coloring—the effectiveness of the trimming—all these are regarded as indicating whether you, who picked them out, are a woman of taste and refinement.

That's why I've come to depend on PRINTZESS styles—I know they're right in every way.

If you are fussy about your clothes, if you want to be sure they are absolutely right in style, that they have real shape retaining qualities that will always make them look as though they had just come from the presser's table, if you want to be sure that you are getting a garment that has all those little things about which the average woman does not know, but which all have their effect in making her dress truly distinctive—come in and let us show you the Fall styles in PRINTZESS, for PRINTZESS suits and coats have all these qualities and our expert garment salespeople will be glad to show you why.

Glenn Bease spent the week-end in Delaware.

Miss Effie Banner of Champaign, Ill., is visiting her uncle and aunt, Mr. and Mrs. Banner.

S. B. Bease and family were Sunday guests of C. M. Bowley and wife of Pataskala.

Health and Happiness Depend Upon Your Liver.

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life Pills cause the bowels to act more freely and drive away those "moody days." 25c. a bottle.

Ohio Electric Schedule Not Discriminating Against Newark, Official Pleads to Merchants

A meeting of the Newark Merchants Association was held in the assembly room of the Newark Trust building last night for the purpose of discussing the new Ohio Electric schedule.

In the absence of President A. R. Lindorf, the vice president, George Hermann presided. Mr. Hermann called upon John C. Krieg, chairman of a special committee appointed to call upon Superintendent Moore, to make a report. Mr. Krieg stated that he with the other members of the committee, H. H. Harris and C. H. Spencer, had visited Columbus, but through a misunderstanding on the part of one of the railway clerks as to the hour for the meeting, Mr. Moore was not present, but Mr. Krieg was pleased to announce that Mr. Moore had come to the Newark meeting for the purpose of explaining why the new schedule had been put into effect.

Mr. Moore stated to the merchants that for ten years hourly local service had been given by the Ohio Electric in and out of Newark, but that in recent years the cost of operation had been greatly increased while the revenue had decreased. The company found it necessary to reduce expenses and this was done by reducing the number of trains. Mr. Moore attributed the poor business of the present year to the increasing number of automobiles, improved pikes, unfavorable weather and general business conditions. Rain and cold weather this year made poor park and excursion business. He said that Hebron and the immediate vicinity alone has 43 automobiles and other communities along the electric route have machines in large numbers. They use these for themselves and their friends and the electric lines suffer. In one hour at a given point on a pike near Columbus during the state fair 257 automobiles passed. Twenty thousand machines attended the state fair while the Ohio Electric cars were partly empty. In the past two years not ten miles of interurban track have been laid in Ohio. At the present time Ohio has 200,000 automobiles and the number is growing daily.

Mr. Moore said that each car (not the trailers) cost from \$10,000 to \$15,000. The Ohio Electric has a large number of these cars idle. The company would be glad to operate them if the people would ride.

"I realize that the present schedule is not satisfactory," said Mr. Moore, "but I assure you that there is no

discrimination against Newark. Every division of the Ohio Electric is affected and the train service has been changed because retrenchment was necessary."

Mr. Moore stated that the Newark receipts in August, 1914, were \$11,523.11; in August, 1915, \$10,116.53, while for the eight months ending August, 1915, the receipts were \$77,828.96 as against \$88,539.15 for the corresponding period last year—a loss of \$10,710.19.

The Columbus, Newark and Zanesville division for August, 1915, showed receipts \$45,970.30 against \$54,250.54 for August, 1914—a loss of \$8,280.24 in one month. The eight months ending September 1 showed receipts \$280,025 against \$307,529 for the same period last year.

Mr. Moore said it cost 25 cents a mile to operate a car and 7 1/2 cents to stop and start a car. The company is charging 1 1/2 cents a mile while the steam line charge 2 cents a mile. He also said that one of the merchants in Kirtlandville stopped him the other day to object to the new schedule, saying it was draining his trade into Newark.

Mr. Krieg spoke of the fact that the one-day round trip rate Newark to Buckeye Lake is 25 cents while the one day rate Buckeye Lake to Newark is 45 cents. Mr. Moore stated that the company had found it advisable not to make the 25 cent rate from the lake because of ticket "scalping."

Henry C. Cochran, who uses the cars daily between Newark and his home west of town, asked Mr. Moore a number of pertinent questions and called to his attention the fact that one may leave Newark early in the morning and reach Columbus before an east bound passenger car arrives in Newark. In other words he feels that the line is operating to the advantage of Columbus and to the disadvantage of Newark. Mr. Cochran also called attention to the passenger rate from Reynoldsburg to Columbus and to rates from points out of Newark.

Mr. Moore said that his company would be glad to meet a committee from the merchants to go into the question of rates and schedules. In this connection Mr. Moore said that the Ohio Electric pays to Newark employees about \$6,000 a month.

W. H. Mazey discussed the railway situation at some length and argued that it would be to the advantage of the railway company to get in line with the people of Newark.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

The real secret of keeping young-looking and beautiful, says a well-known chemist, is to keep the liver and bowels normally active. Without these organs, poisonous waste products collect in the system, polluting the blood and lodging in various organs, tissues, etc. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face.

But to get liver and bowels working they ought, without producing evil effects, have been the problem. Fortunately, there is a prescription of unimpaired merit, which may now be had in convenient tablet form. Its value is largely to an ingredient derived from humble May apple, or its root, which is called "vegetable calomel" because of its effectiveness—though of course it is not to be classed with the calomel of mercurial origin. There is no habit-forming constituent in "Santal tablets," that's the name—U. S. P. is not followed by weakness or excitation. On the contrary, these harmless vegetable tablets tend to invigorate and elasticity to the relaxed internal wall. Santal tablets, which may be procured from any druggist—a dollar a box—will prove a revelation to constipated, liver-troubled persons.

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Acrid eruptions, pimples, blotches, sallow or mottled complexion, due to a sluggish liver, a constipated bowels—and a polluted blood stream as a consequence. How foolish in such cases, to use a drug store which is as effective as a harmless and quick acting. It is an old, long recognized by the medical profession, which has been known to cure a torpid liver, but off the sanest, sensible treatment for complexion blemishes of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "Santal tablet" as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It has made a hit particularly in those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Santal tablets, aside from their effect on the bowels, have a tendency to aid in bringing about normal functioning—instead of encouraging the habit of a "sloppy" bowels, thus injuring the membranous lining of the organs involved, they exert a healing influence. In case of weakness, they are a tonic to the system. And they are so gentle, they are of use in all cases of constipation.

One preferred on this account to the usual acting purgatives. Their interest in another reason for the popularity of Santal tablets. One need only take a dime's worth, and take a little more, and the constipation is cured. They are so gentle, they are of use in all cases of constipation, and they are so gentle, they are of use in all cases of constipation.

ARREST WOMAN AS ACCOMPLICE IN CONSPIRACY

MAN ALSO TAKEN INTO CUSTODY FOR FRAUDULENTLY OBTAINING PASSPORT

Alleging He Was a Citizen of Switzerland Thereby Defrauding the United States.

New York, Sept. 20.—Andre Meloy, who was arrested by department of justice agents, when he arrived today on the steamer New Amsterdam was arraigned before United States Commissioner Houghton, charged with conspiring with Frans Rintelen, a German wine merchant, to defraud the United States government in securing a passport for Rintelen. Meloy, who said he had recently been engaged in promoting Mexican enterprises was held in \$10,000 bail for a hearing, October 7.

Meloy, his secretary Miss Hattie Brophy and Frans Rintelen, alias E. V. Gaskche were taken off the steamship Noordam at Kirkwall by British military authorities early in August. Rintelen was sent to an English detaining camp where he still is.

Meloy and Miss Brophy, who said they were enroute to Switzerland when detained at Kirkwall, were returned to this country at the instigation of the department of justice.

Agents of the department met the New Amsterdam down the bay today and took off Meloy and Miss Brophy. The latter is being held as a material witness.

Rintelen sailed on the Noordam with a passport stating he was a citizen of Switzerland. Department of Justice agents allege that before he obtained his passport he endeavored to secure passports under the aliases of Hansen and Gates.

Meloy is alleged to have written a letter on or about August 3, stating that he had known Gaskche for a long time and knew him to be a citizen of Switzerland.

Assistant United States Attorney Sarfaty said a grand jury investigation into the case was begun a few hours after Meloy was arrested.

Present indications are Mr. Sarfaty said that a third man as yet unnamed was directly implicated in obtaining the passport.

MEN CAN MAKE \$5 PER DAY AT CUTTING CORN.

Columbus, Sept. 20.—Notwithstanding reports of lack of employment Franklin county farmers complained today that they are unable to obtain men to cut corn, although they are offering to pay 18 cents per shock, which they assert would mean 35 per day.

One farmer reported that eight men answered his advertisement but refused to take the work when informed as to the character of the labor to be performed.

Land owners assert they will be forced to allow much of the corn to stand in the fields and be gathered from the stalk.

GREEK CHAMBER HAS APPROVED MOBILIZATION

[ASSOCIATED PRESS TELEGRAM]

Athens, Sept. 20.—Via Paris, Sept. 20.—The Greek Chamber, in a special session today ratified the action of the government in decreeing a general mobilization of the army and authorized a loan of \$30,000,000.

London, Sept. 20.—An Athens dispatch to the Exchange Telegraph company, filed yesterday says: "Bills proclaiming a state of siege in Macedonia, providing for the families of men called to the colors and providing a credit of 150,000,000 drachmas (\$30,000,000) to meet the expenses of mobilization, were enthusiastically applauded and voted at a sitting of the chamber today. Premier Venizelos who was given an ovation, stated the reason why Greece was obliged to mobilize and emphasized the gravity of the situation. Former Premier Gounaris expressed his approval of M. Venizelos' declaration."

PREPARE FOR FIRE PREVENTION DAY, OCT. 9TH

ONE SHOULD REMOVE DANGERS
FOR WHICH HE IS RE-
SPONSIBLE

Inspect Premises Cellar to Garret—
Remove Trash and Have Wiring
Examined.

According to a custom, which should be permanently established, Governor Willis has officially proclaimed Saturday, October ninth, Fire Prevention Day. The average date of the first killing frost in Ohio is the eighth of October.

What is the duty of the occupant of a dwelling, the owner of a store or factory and of the city official?

In dwellings, trash and fluff should be taken from cellar, closets and attic—while in the cellar see that any swing gas bracket is made a rigid one. The most dangerous closet is one under a stair for odds and ends liable to spontaneous combustion are likely to be hidden in its toe and fire there almost immediately cuts off the escape of those in upper stories. The garret, even in a well-regulated family, is a curiosity shop of tinder-dry inflammable stuff and may have in it the worst of tenants, left-over paints and oils.

See if the wood above the furnace is charred. If it is, a sheet of zinc or tin should be hung under it, not in contact with it. Clean the pipes and look for cracks.

Has some part of the cook stove, or its pipe, a crack in it through which a spark might escape? Is the floor under it and the wall behind it protected by tin or zinc? Is there danger of the pipe slipping out at the top? If the pipe runs straight into the flue—that is without an elbow, it should wear a collar where it enters.

The use of rubber tubes to connect gas stoves is illegal.

A gasoline stove should stand with its reservoir out of doors. In a warm kitchen the fluid in this tank will expand giving off a vapor which explodes with greater power than gunpowder. Heaters in other rooms should be inspected for spark dangers and they should not have their feet on a carpet.

The mantle-piece usually has inflammable stuff on it—the common, dangerous kind being matches. Matches should be kept in a tin, iron or stone box—out match dangers make a long story.

Noise curtains or decorations which a wind might wave into a fire or gas light.

In bedrooms search closets for greasy rags—and overalls. Is there a stovepipe hole that is covered by wall paper? or stuffed with rags? Swinging gas jets should be immobilized and the curling iron should not be associated with articles made from thin celluloid. Gasoline should not be permitted in this, or any other room in the house. The danger from gasoline is to the user rather than the house for the burned one makes an outcry which is an instant fire alarm.

Fuzzy shingles often take fire from sparks, therefore they should be removed or painted—it is worth the while to paint shingles, anyway, because it lengthens their lives, but why have shingles at all when slate is cheaper, its durability and the difference it makes in insurance premium being taken into account.

The owner of a store should rid it of rubbish beginning with the areas in which burning match-sticks and cigarettes might fall. Heating appliances should be examined, ventilators cleared and fire fighting apparatus overhauled. The open elevators and the stairways are the greatest menaces in business blocks.

Each mercantile business has dangers peculiar to itself and a wise owner will consult a fireman—every fireman gives such advice gladly—in regard to his dangers. The fireman may show him a way to make a change which will lessen his fire insurance cost, too.

In factories, so varied are the dangers that they cannot be recited in one newspaper column, but a clean-up-get-ready-for-winter day is equally important in them although many of them have private fire departments, sprinklers and roof tanks.

Manufacturers having paint shops in them should hunt spilled grease and rags. Dangers from chemicals

electricity and hotheuses are too varied to enumerate. Every wired factory, store and dwelling once each year should be inspected by an expert. The number of fires from electricity is increasing in spite of improvements in the apparatus and the code of the National Fire Prevention Association.

Nothing is hotter than an electric arc which may reach between the ends of a broken wire—as in an arc lamp. Arcs form, too, between naked wires torn together. Many buildings are set a fire by "grounds," the current escaping to the earth as a result of a live wire touching gas or water pipes, or other wires.

In every manufacturing concern Fire Prevention Day can be celebrated by a fire drill.

The city fathers should give notice that all trash and calamities put conveniently within the reach of teamsters on that day shall be hauled away, they might set a good example in starting the clean-up early in the municipal buildings and in their homes.

When in doubt about fire danger, ask Chief Bausch. He knows the answer and will give it joyfully.

BERT B. BUCKLEY,
State Fire Marshal.

CARRY STOMACH JOY IN YOUR VEST POCKET

Here's a Dyspepsia Remedy That Is
Really Guaranteed By Your
Druggist.

One of the greatest successes in the sale of medicine has been achieved by Mi-o-na, the standard dyspepsia remedy, and its sale is increasing so rapidly that many druggists have had to keep a stock on hand. It is very popular with bankers, ministers, lawyers and others whose business or profession keeps them closely confined, while those who have brought on indigestion through irregular eating, worry, or other causes, have found relief in this reliable remedy.

Mi-o-na comes in tablet form and is sold in a metal box especially designed for convenience in carrying the medicine in the pocket or purse. It is pleasant to take, gives quick relief and should help any case, no matter of how long a standing. This remedy has been so uniformly successful that all druggists are authorized to sell Mi-o-na under a positive guarantee to refund the money if it should not prove entirely satisfactory. We doubt if any other dyspepsia medicine ever had a large enough percentage of cures so that it could be sold in this manner. A guarantee like this speaks volumes for the merit of the remedy.

There is no time like the present to do a thing that ought to be done. If any one has dyspepsia, today is the best time to begin curing it by going to T. J. Evans or any leading druggist in this vicinity and buying a box of Mi-o-na on this money back guarantee.

A Wonderful Antiseptic.

Germ and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germ and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. It neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1.00 size contains six times as much as the 25c.

NEWARK MINISTER DELIVERS SERMON

The Asheville, N. C., Gazette News of Monday complimented a Newark minister as follows:

Rev. Dr. D. A. Greene of Newark, O., preached an able sermon at the Mount Pleasant church to a large and attentive audience. Taking as his text, "The Redemption of the Soul Is Costly," the speaker said that there is warfare between the powers and influences of the evil world and of the spiritual world for the possession of the soul of man. He referred to those wrong methods in business and customs in social life that destroy man's better nature. Jesus Christ, said the minister, came into the world to purchase man's redemption.

Rev. Dr. Greene is a pleasing speaker and his sermon made a strong impression. He is a guest at Billows Rest while in the city.

REGISTER TODAY 4 P. M. TO 9 P. M.; FIRST OF 4 DAYS

Today was the first of four registration days for Newark voters who seek to qualify to vote at the municipal election this fall. The hours were from 4 p. m. to 9 p. m. and the booths will be open this evening from 4 to 9 p. m. The registration through the morning hours was very light.

FIRE TRUCKS ARE EXPECTED TO COME SOON

The automobile fire apparatus purchased three months ago and which was to be delivered within 90 to 120 days, is expected to reach Newark this week. The factory at Marion, Ind. advised local officials a few days ago that everything was complete except some special equipment which had not arrived at the factory but was expected daily. Certain changes at headquarters must be made before the machines can be installed in the present apparatus room.

OHIO GUARDS WELFARE OF HER TOILERS

INDUSTRIAL COMMISSION HAS
MADE THOUSANDS OF
FACTORY CHANGES

Looking to Safety, Comfort and Better Working Conditions—On in Licking County.

(ASSOCIATED PRESS TELEGRAM)

Columbus, Sept. 20.—How the state of Ohio watches over the safety and health of her industrial workers is shown by a report on the inspection of workshops, factories, and public buildings between September 1, 1913, and December 31, 1914, made public today by Fred C. Croxton, chief statistician of the industrial commission. The inspections were made and orders issued by the department of workshops and factories under chief inspector Thomas F. Kearns, recently resigned.

The report, covering 16 months, shows these facts: 20,095 establishments were inspected; 24,465 inspections were made, resulting in the issuance of 11,220 orders with 31,341 distinct requirements for changes in buildings or working conditions.

A total of 6,256 orders or more than half, were issued to manufacturing establishments, including 1,370 making food or kindred products and 1,096 making iron, steel and such products; 3,253 were issued to hotels and restaurants; 1,184 to wholesale and retail stores; 307 to transportation companies and public utilities.

Of the 31,341 requirements, for changes, 61 per cent were for protection of life and limb; 22 per cent related to health, sanitation, health, comfort and moral safeguards; 13 per cent related to the employment of women, children and minors.

Of the 19,254 requirements relating to physical safety, 1,832 were to guard belting and pulleys; 1,466 were to guard cog, gear and friction wheels; 1,282 were to provide or extend hand rails for stairways; 1,212 were to guard set-screws, belts, nuts and keys; 1,115 were to provide fire extinguishers; 738 to guard saws; 737 to guard fly, or drive wheels; 703 to make exit doors swing outward.

Of the 7,656 requirements relating to sanitation, health or comfort 778 were to provide sanitary drinking fountains; 632 to paint, paper or whitewash work rooms; 508 to clean workrooms; 1,500 related to providing or improving toilet facilities.

Public sentiment, however, must be more generally aroused before public buildings and factory inspection laws can be effectively enforced. The number of orders issued to establishments by counties in part follows:

Allen 125; Butler 411; Clark 107; Cuyahoga 1343; Erie 130; Franklin 412; Hamilton 1968; Hancock 104; Licking 94; Lucas 319; Montgomery 732; Muskingum 105; Scioto 122; Stark 272; Summit 55.

MINING VILLAGE IS COLLAPSING; RESIDENTS FLEE

(ASSOCIATED PRESS TELEGRAM)

Pittsburg, Sept. 20.—Men, women and children, during last night, hurriedly abandoned their homes in Valley Camp, a village on the Allegheny river near here, as holes yawned in streets, houses toppled dangerously, and gas and water mains broke. The village was built over the workings of what had once been an important coal mine, and as the decayed supports of the abandoned workings gave way, the surface settled over a considerable area. The damage began yesterday afternoon and while several streets were closed to traffic, many people refused to move until their houses began to settle. In a number of instances porches dropped on the edge of dangerous openings. The extent of the damage will not be known until the surface has settled which, it was said, by mining men, might be several weeks.

VERY PROMINENT BRITISH OFFICERS KILLED IN BATTLE

London, Sept. 20.—The British casualties in the recent offensive action on the western front include Lieutenant General Sir Thompson Capper and Major General C. H. Theisger, both killed.

General Thompson, who was born

in 1863, commanded the thirteenth infantry brigade from 1911 to 1914, and then was appointed an inspector of Infantry. He had been awarded the distinguished service order, and several other medals for his gallantry. General Theisger had been promoted several times since the war began. He served in the Nile expedition of 1898 and in the South African war. He was inspector-general of the King's African rifles from 1909 to 1913.

WHY OLD BACKS ACHE

Many Newark Old People Have
Found Backache to be a Sign of
Kidney Weakness.

What a pity that so many people
past middle age are worried with
lame backs, aching kidneys, poor
eyesight, sick headaches, dizziness,
gravel, dropsy or distressing urinary
trouble. Kidney weakness brings these
discomforts in age or youth, and is a
dangerous thing to neglect for it
leads to Bright's disease and uric
acid poisoning. Doan's Kidney Pills
have brought new strength to many
Newark old people. You will make
no mistake by following Mr. Pritch-
ett's example.
P. B. Pritchett, 406 Wilson street,
Newark, says: "I had kidney trou-
ble and wore a plaster all the time.
I tried any number of medicines for
lumbago and weak back. It remained
for Doan's Kidney Pills, however,
to cure me. For years now, I have
had a strong back and although I am
nearly seventy-five years old, I can
stand a lot of strains on my back.
Doan's Kidney Pills also cured me
of getting up at night. This trouble
hasn't annoyed me since."
Price 50c at all dealers. Don't
simply ask for a kidney remedy—
get Doan's Kidney Pills—the same
that Mr. Pritchett had. Foster-Mil-

Don't Stay Gray
Tint your hair to the shade desired with
"Brownatone." This new preparation
is far superior to any mixture that con-
tains henna, sulphur, silver, lead or
similar preparations.

There is no danger of an itching or
poisoned scalp when you use "Brownatone,"
for this simple preparation posi-
tively contains no lead, mercury, silver,
sulphur, zinc, arsenic, coal-tar pro-
ducts or other dangerous, irritating
brush or comb it into the hair and
 presto!—your gray hair instantly dis-
appears—your hair is beautiful and
uniform color throughout—the ends are
as dark as the balance and you have
any shade desired from a light brown
to a black. Just a moment's "touch-
up" once a month and no one can ever
detect it.

Prepared in two shades—one to pro-
duce golden or medium brown, the
other, dark brown or black. Two sizes
25 cents and \$1.00.

We will send absolutely free, for a
short time only, a sample bottle of
"Brownatone" if you will send us your
name and address accompanied by 10c
to help pay postage and packing. No
samples at dealers. This offer is made
for you to try "Brownatone" Home and

BUSY DAY FOR G. A. R. VETERANS AT ENCAMPMENT

RECEPTION TENDERED AT THE WHITE HOUSE BY PRESIDENT A FEATURE.

Two Hundred Marchers in Yesterday's Parade are Recovering in Washington Hospitals.

[ASSOCIATED PRESS TELEGRAM]
Washington, Sept. 30.—Most of the 200 civil war veterans taken to hospitals yesterday when they became exhausted in the G. A. R. parade had fully recovered today and were ready for participation in the remainder of the annual re-union program. A majority of the aged men stood the march from the capital to the White House well, but others were forced to drop out of line because of exhaustion. Hospitals and emergency relief stations established along the route of the parade on Pennsylvania avenue were kept busy, but there were no fatalities. Most of the cases were treated and immediately dismissed.

The veterans had a busy day before them, the program being featured with a reception at the White House by President Wilson to the surviving officers of the civil war, a business session at Camp Emory, headquarters of the G. A. R., and the dedication of a jubilee tablet at Manassas, Va. Among those expected to attend the White House reception were Col. David J. Palmer, commander-in-chief of the G. A. R., and three surviving commanders-in-chief, Major Leo Rossier, Captain Beers and Lieutenant Eli Torrance.

The day was to be brought to a close with a meeting of the resolution committee and a reception to Commander-in-chief Palmers, by the Daughters of the American Revolution.

President Wilson received several thousand members of various G. A. R. organizations including the national association of ex-prisoners of war, the Paterson, N. J. delegation, and the Women's Relief Corps.

The reception was in the east room, and the president was accompanied by his military aides in full uniform.

Colonel David J. Palmer, commander-in-chief of the G. A. R., announced in a speech at the opening of the first business session of the encampment today that the organization was to make an effort to secure "proper" pensions for civil war nurses. It was an executive session.

Other speakers included Lieut. General Nelson A. Miles, who deprecated the fact that many of the veterans were forced to stand for several hours before they took their places in the parade yesterday which resulted in many exhaustion cases.

Business sessions of the encampment were continued this afternoon. It was considered doubtful whether the election of officers would be reached before tomorrow. This, however, depended upon the speed with which the question of the place of the encampment of the next year was disposed of. The contest, it was said, was between Atlantic City and Kansas City. The advisability of establishing permanent headquarters also remained to be decided.

Municipal Bonds Safest of all Known Investments

The Security Municipal Bond Company offers carefully and conservatively selected Municipal Bond investments yielding profitable rates of interest on investments.

Municipal Bonds, that is, bonds issued by Cities, Counties, Boards of Education, Townships and other political subdivisions, are paid, both interest and principal, out of moneys raised by public taxation, and for their payment the faith, credit and resources of the public are pledged.

Being backed by the resources and taxing power of the public, Municipal Bonds are regarded by our most conservative financiers as the safest of all known investments.

Legally and properly issued Municipal Bonds are not only safe in every way, but they afford opportunities for exceedingly profitable returns on investments when the element of safety is considered.

The Security Municipal Bond Company carries at all times a large and varied stock of Municipal Bonds, and can supply its customers with gilt-edged securities to net them from five to six per cent on their investments.

The Security Municipal Bond Company, as heretofore announced, is composed of a syndicate of banks of Licking and Muskingum Counties, with large money resources dealing in Municipal Securities exclusively. It owns outright all of the bonds which it offers to its customers, and every issue of bonds is purchased first handed after the most careful and thorough examination of the security back of them.

Persons desiring safe and conservative investments, yielding profitable rates of interest should consult Mr. D. H. Pigg, who has entire management of the business of The Security Municipal Bond Company in Licking County. The company's offices are located in the Newark Trust Company Building, Room 703.

BAIRD RESIGNS
AS ASSISTANT
FIRE MARSHAL

John H. Baird, of South Sixth street today resigned as an assistant state fire marshal, tendering his resignation to State Fire Marshal Bert B. Buckley at Columbus.

Mr. Baird was appointed an assistant state fire marshal by Hon. E. P. Deffenbaugh of Lancaster, and has served two years in that department. He has made a splendid official and had a record for efficiency equal to any in the service. The fire marshal's department under the old

JOHN H. BAIRD.

Republican regime was simply a place to repay political obligations and had been so conducted for years. It was placed upon a higher plane for competency under the Harmon administration and from that time advanced until it has become the leading factor in all things for betterment conducted by the state.

Under the superintendency of Ex-State Fire Marshal E. P. Deffenbaugh the department attracted the attention of many states and inspectors were sent to Columbus to pattern after the Ohio office. A system was inaugurated which has proved very effective, and many convictions were made for arson, the result being that the fire loss over the state through incendiarism has been greatly diminished.

Assistant Fire Marshal Baird was one of Mr. Deffenbaugh's trusted lieutenants. His many friends will wish him success in whatever vocation he may undertake.

REVIVAL CLOSES;
BEST RESULTS
ON LAST NIGHT

Last night's meeting at the Church of Christ, corner Stevens and Holmender streets, was the best of the series of three weeks.

The evangelist and the song leaders all appeared to be at their very best and an exceedingly impressive service was rendered.

The subject of the sermon was "The Choice For Service," taken from Joshua's farewell speech to the children of Israel.

Unlike all other of God's creatures, man is a being of choice. From Genesis to Revelation God makes plain the fact that man is responsible for his actions.

Again the choice is for service. Service to mankind is the true test—let him that is greatest among you be your minister," said the pastor.

This choice for service must be personal and independent. "Choose you," "As for me and my house we will serve the Lord," declared Joshua. Daniel Webster said that the greatest thought that ever occurred to him was the thought of his personal responsibility to Almighty God.

Finally, the choice admits of no delay. Today is the day of salvation; now is the accepted time. Four responded to the invitation at the close of the service, making a total of over 60—all adults but one.

Several were baptized in the Licking river this morning. There will be preaching both morning and evening at 10:30 and 7 p. m. J. H. McGier will address the congregation both morning and evening.

At 9:30 the Bible school will convene. A large attendance is urged. The public is cordially invited to any and all of these services.

ESCAPED LUNATIC
WRECKED LOCKUP
AND MADE ESCAPE

Cleveland, Sept. 30.—Cuyahoga and Geauga county officials united today in a search for a man supposed to be Harvey Hinckley of Cincinnati, who escaped from the state hospital for the insane here Tuesday and who wrecked the village lockup at Middlefield last night and escaped, taking most of the bedding with him. The man appeared in Middlefield early yesterday morning and said he had just been discharged from a Cleveland hospital and was trying to find a woman who was to share with him a large amount of property he had stolen. The woman was located last night in Painesville and insisted that the man was insane. He was then locked up by Marshal Wilkerson. He said his name was Hinckley. This morning he was gone and the jail was a wreck. Hinckley walked away from the hospital Tuesday. He was suffering from nervous breakdown and was rapidly recovering, hospital authorities said.

WOMAN KILLED,
FIANCE INJURED,
BY AUTOMOBILE

Los Angeles, Sept. 30.—Miss Clio Davenport, sister of the cartoonist Homer Davenport, is dead and her fiancé, Frank Travers, an official of the Panama-Pacific Steamship company, was in a precarious condition today as the result of an automobile accident last night.

The couple was strolling near the hotel where Miss Davenport had been staying with her mother and sisters when they were struck by an unidentified automobile who reported the accident to a nearby druggist and then disappeared. Both suffered fractured skulls.

MAKING ASPHALT
SUBJECT OF FILM
AT TAYLOR HALL

Mr. J. B. Klunk, representing the Harbor Asphalt Co., will exhibit the Natural Lake Asphalt Industry this evening at the Y. M. C. A. auditorium, by the use of motion pictures, showing how the material is mined from the lake and every process that it passes through from the lake to the finished pavement. The city is contemplating the resurfacing of its streets, Hudson avenue to be the first, and Mr. Klunk comes in the interest of his company. The public is cordially invited to witness the exhibition which will be free and is to be held at eight o'clock this evening.

SERBIA

HAS ARMY OF 600,000 MEN TO
RESIST TEUTON ALLIES'
INVASION.

American Relief Has Been Applied to
Buying Farm Implements—
Sanitary Conditions Better.

(ASSOCIATED PRESS TELEGRAM)

New York, Sept. 30.—Serbia has an army of about 600,000 men in the field to resist invasion of that country by the Teutonic Allies, according to information received by the Serbian agricultural relief committee from Prof. Lanitch of the University of Belgrade.

The professor estimates that Serbia has lost about 120,000 men since the war began and that one in every five who were wounded died. The army includes, he says, practically all the able-bodied men between the ages of 18 and 60 years.

The money sent to Serbia by the relief committee, the professor wrote, was used to purchase farming implements and materials and these were distributed in the districts devastated by the war with the result that part of them are now under cultivation.

Sanitary conditions in the army, he wrote, now are normal, and English and French missions have inoculated the whole army against typhoid and cholera. The number of soldiers who have been crippled is large and many of them are homeless.

ARREST DRIVER
WHO RAN OVER
A LITTLE BOY

Nelson Bounds, living at National Road, south of Newark, was arrested Wednesday on a charge of assault to kill, following the police investigation of the accident in which Harry Redman, 10, was run down and seriously injured at Union and Hancock street.

The police secured the number of the machine which was responsible for the accident and this led to Bounds' arrest.

He gave bond in the sum of \$1,000 for his appearance before Mayor Bigbee for a hearing.

It was decided to continue the case until October 8, until the seriousness of the injuries of the Redman boy is ascertained.

At the Redman home this afternoon it was stated that the boy seemed somewhat improved though he was still suffering from the effects of the injury. Dr. Barker, who is attending him, told the family that internal injuries, if any, would probably develop by tomorrow.

People driving in Union street and who saw the accident, state that the Redman boy appeared to be stooping over to pick up something when the machine struck him.

SCHOOLS CLOSED

FRIDAY FOR FAIR;

PUPILS MUST PAY

The public schools will be dismissed tomorrow in order that all pupils who so desire may attend the county fair. There will be no free admission however, except to children under eight years of age. This announcement was made on account of many believing that the former custom of free admission to school children would be continued this year.
